

26. Adverse Weather Policy

EYFS: 3.55

At Play2Day Nursery we have an adverse weather policy in place to ensure our nursery is prepared for all weather conditions that might affect the running of the nursery such as floods, snow and heat waves.

If any of these incidents impact on the ability of the nursery to open or operate, we will contact parents via the Family App, phone, or email

We will not take children outdoors where we judge that weather conditions make it unsafe to do so this included high wind speeds from 24 hours before.

Flood

In the case of a flood we will follow our critical incident policy to enable all children and staff to be safe and continuity of care to be planned for.

Snow or other severe weather

If high snowfall, or another severe weather condition such as dense fog, is threatened during a nursery day then the manager will decide whether to close the nursery. This decision will take into account the safety of the children, their parents and the staff team. In the event of a planned closure during the nursery day, we will contact all parents to arrange for collection of their child.

In the event of staff shortages due to snow or other severe weather, we will contact all available off duty staff and group the children differently until they are able to arrive. If we are unable to maintain statutory ratio requirements after all options have been explored, and we feel the safety, health or welfare of the children is compromised then we will take the decision to close the nursery. We will contact Ofsted to inform them of this issue, recording all details in our incident file.

Heat wave

Staff will make day-to-day decisions about the length of time spent outside depending on the strength of the sun. Shaded areas are provided to ensure children are able to still go outside in hot weather, cool down or escape the sun should they wish or need to. For further details, please refer to our sun care policy.
